# Penn Equipment Corporation

Conveniently located directly off of state route 209 and only miles from route 61 and route 81, Penn Equipment Corporation is a family owned business continuously in operation for over 35 years. In our 45,000 sq. ft. shop we offer a variety of quality repair services to

industries whose business depends on properly repaired and maintained vehicles and equipment. With a dedicated and skilled workforce, services are performed by qualified personnel who specialize in all phases of precision machining, hydraulic and pneumatic

cylinder repair, mechanical repairs and welding of new or used parts and equipment. Off-site capabilities include all types of field welding, and mechanical and hydraulic repairs. State inspection and repairs of light, medium and heavy trucks and trailers are performed in our shop.

We are a member of the Northeast Pennsylvania Manufactures and Employers Association, the Schuylkill County Chamber of Commerce.

As an authorized distributor for Bel-Ray and Alemite products and 4600 Manitowoc and Crane parts contact us for all your needs.

Our ongoing commitment to service and satisfaction has set us apart from our competitors.

Our customer range:  
Mining industry  
Sewage Treatment Plants  
State, County and Municipal Highway Departments and Authorities  
Production and Manufacturing Plants  
Industrial and Commercial Facilities

## ⚙️ MACHINE SHOP
